

# OCCUPATIONAL HEALTH AND SAFETY POLICY

We shall create a safe and attractive workplace at our operations for material handling products.

We achieve this by:

Ensuring that we have the most competent people and the best conditions for our employees' development.

Utilizing working methods that facilitate a safe and good work environment.

Involving and delegating responsibility for health and safety issues at all levels of the company.

Making decisions based on facts.

Continuously improving our products, activities and processes.

We comply with or exceed the applicable legal requirements, our customer's and stakeholder's expectations.

*Kristian Björkman*

Kristian Björkman MD, Toyota Material Handling
